ABOUT

With more than 23 years of professional experience in architecture, Peter leads EDI's Pittsburgh office overseeing the design and production of various types of projects. From the beginning of his architectural career, he has been associated with innovative, successful projects. His background includes multi-family, commercial, retail, hospitality, higher education and religious facilities.

Peter's responsibilities include conceptual design, schematic design, design development, construction documentation and detailing, code review, consultant team coordination, shop drawing and submittal reviews, and on-site inspections.
